

Financial & Insurance Information

We make every effort to provide the finest surgical care at the most reasonable cost to our patients. Several factors determine the fee for oral surgery services, including the complexity of the procedure performed and the contribution by the insurance company. Before you begin treatment, we will provide you information about your estimated insurance coverage and your options to pay for amounts not covered by your dental insurance plan.

Payment Methods Accepted

Payment is due at the time of service. You may pay with cash or credit card – **Visa, MasterCard, Discover, or American Express.**

Financing

Financing is available through CareCredit, which is a third-party patient lender offering a variety of low monthly payment plan options. To apply or find out more information, please click on the logo to the right.

Insurance

We are a participating provider for many dental PPO and HMO insurance plans. We ask that you provide us with your dental insurance information at the time of scheduling your appointment so that we can verify benefits and confirm coverage. In most cases, insurance does not cover the full cost of surgical care. It is designed to reduce your cost, but not to eliminate it completely. Your portion of the cost (deductible, co-payment, and other non-covered charges) will be collected before service is rendered. Our staff will file an insurance claim and will assist you in obtaining the maximum benefits available under your policy. However, please remember you are ultimately fully responsible for all fees charged by this office regardless of insurance coverage.

Financial & Billing Questions

We are here to help and we promise to do our best. For financial questions before your appointment, please call our office at Texas Institute of Oral, Facial & Implant Surgery phone 469 649-8259 or email info@txinstituteoms.com.
